Scope for Improvement
Formats for Manufacturing Unit
Format No.:

MARKETING
Communication with Customers, Customer Satisfaction, Timely Delivery and sales after services

RAW MATERIAL | CONSUMABLE GOODS
Raw material Receiving, Incoming Raw material Inspection, handing, Storage and safety

EQUIPMENT AND MACHINERY
Equipment / machinery / Instruments / Devices – Handing, Operating, Movement, Storage, Maintenance and safety requirements

MANUFACTURING
Manufacturing Process (Interactions & Sequences), Establishment, Process stage wise inspection, Cost Reduction, Reduction in wastage, Respective use of resources

HUMAN RESOURCES

QUALITY
Quality Assurances, Quality Control – in-process quality control, sampling inspection, testing, Results analysis, third party communication and balances, approval methods, test certification, standardization

PACKING
Packing Material, Reduce use of Packing material, minimize wastage & resources, flexible packing

DISPATCH
Communication for transpiration, timely delivery, documentation

EXPORT
Export management plan, Strategy of export, Quality system & export, Balance of Domestic sales and export
